

GREEN PROCUREMENT POLICY

HYDROPOWER ENERGY AND GENERAL CONSTRUCTION shall remain committed to protecting the Environment and shall take all possible steps to reduce waste & carbon footprint.

The Management and Staff of HYDROPOWER ENERGY AND GENERAL CONSTRUCTION are committed to:

- Setting objectives and action plans in support of this policy, and pursuing continuous improvement of our practices;
- Prioritizing suppliers who have embedded sustainable and ethical practices within their organization and who drive such practices within their own supply chain;
- Identifying areas of high risk and influence within our supply chain and engaging with suppliers in those areas;
- Complying with the letter and spirit of all applicable legislation.

Through supplier selection and direct engagement, we will favour suppliers that actively reduce their Environmental footprint through:

- Conservation of resources such as energy, water and raw materials;
- Waste minimization both within their operations and through reduced packing;
- Reducing the impact of deliveries and maximizing local sourcing.

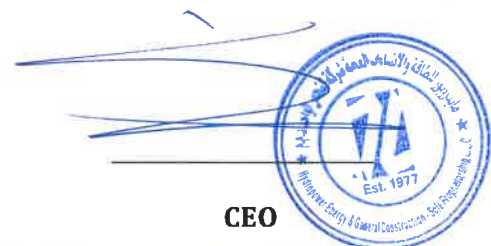

Deliver benefits to society through:

- Complying with international Labour Organization (ILO) principles in respect to human rights and conditions of employment.

Drive economic growth through:

- Supporting job creation and facilitating opportunities for small-and-medium-sized enterprises (SMEs) and social businesses;
- Considering the life-cycle cost of products;
- Providing qualification based fair remuneration to employees.

This policy will be communicated throughout the firm and is available for public review. It will be reviewed on a regular basis to evaluate relevance, consistency, monitor compliance and drive continual improvement.
